Public Input Sought on Housing and Community Development Priorities

Online survey will help determine how federal funds are spent

MENIFEE, CA— The City of Menifee is seeking public input on the community's most pressing needs, which will be used to develop a five-year plan for using federal funding for projects aimed at improving the lives of residents.

Menifee citizens are being asked to participate in a short, [online survey](#) about priorities and needs in nine areas: housing, community facilities, community/special needs programs, homeless services, business and infrastructure, social services, public transit, natural disaster vulnerability and broadband internet equity.

The feedback will be used for creating the city's 2022-2027 Consolidated Plan, which is underway and will serve as a strategic roadmap for use of Community Development Block Grant (CDBG) funds. The plan helps states and local jurisdictions assess their affordable housing and community development needs and market conditions, and make data-driven, place-based investment decisions.

We want to know what you think. Please click the link or scan the QR code below to launch the survey. The survey is open through October 31, 2021.
