City of Menifee Named Southern California Top Workplace for Fourth Consecutive Year
The City of Menifee was the only city in San Bernardino or Riverside County to receive the Top Workplace distinction by the Inland News Group.

MENIFEE, CA – For the fourth consecutive year, the City of Menifee was named a “2021 Top Workplace” by the Inland News Group. This annual program invites hundreds of businesses and thousands of employees in Riverside and San Bernadino Counties to participate in a unanimous survey rating their workplace on benefits, leadership, training, compensation, and most noteworthy, workplace culture. The City of Menifee was the only city government agency awarded the distinction of the 33 organizations selected from public, private, nonprofit, and government agencies from the two-county designation.

The Top Workplaces program, created by Energage in 2006, maintains the value that “the most successful companies are the ones that employees believe in.” A company’s designation and ranking as a Top Workplace are determined and calculated based on employee input by Energage’s Workplace Dynamics, a leading research firm on organizational health and employee engagement. More than one million people complete the survey about their respective organizations each year.

“Earning this distinction four years in a row is a great honor and a testament to our work culture of purpose, engagement and value amongst our employees who are a fundamental part of Menifee’s success,” said City Manager Armando G. Villa. “We believe it is paramount that as we continue to grow, that our employees feel more than just valued, but work where their values and talents are best utilized to help achieve our common goal: building a safe, thriving, and premier place for our residents and businesses.”
