

Help Us Make Streets Safer in Menifee!

The City of Menifee is creating a Complete Streets Plan (CSP) to **improve access, mobility, and safety** for all modes of travel including walking, bicycling, public transit, and automobiles.

A **complete street** is safe and accessible for all modes of transportation including pedestrians, bicyclists, transit riders, and automobiles.

Come visit our booth at the following City events to learn more about the project and give feedback!

07

Clean Air Day

9AM-12PM
MSJC
28237 La Piedra Road

DEC
02

Tree Lighting & Holiday Bazaar

4PM-8PM
MSJC
28237 La Piedra Road

BENEFITS OF A COMPLETE STREET

Equitable Access

A complete street improves access to destinations for all ages and abilities and reduces transportation barriers.

Environmental Benefits

Complete streets establish the foundation for folks to transition from single vehicle occupancy to non-motorized travel, reducing greenhouse gas emissions.

Health Benefits

Active transportation is an excellent way to integrate exercise into daily activity, helping reduce obesity and related chronic illness, such as diabetes and heart disease.

Economic Benefits

Community businesses benefit from increased foot traffic and property near complete streets have higher market values.

Social Benefits

Residents are more likely to engage with their neighbors while they are out and about, traversing through their neighborhoods, creating a deeper sense of investment in their community.

Safety and Security Benefits

Complete streets serve as a crime deterrent as walkable areas increase "eyes on the street" and improved lighting increases nighttime visibility and comfort.
